

Sprint 3 Plan – CMPS 115

Heading

Document Name: Sprint 3 Plan

Product name: My Fitness Program Distributor

Team name: Fitness Team

Sprint Completion date: 7/23/19

Revision: 3

Revision date: 7/16/19

Goal

Goal 1: Complete workout customization page.

Goal 2: Complete workout details page.

Goal 3: Design and implement workout overview page.

Goal 4: Design and implement exercises How-To page.

Task Listing (Organized by User Story)

User Story 1: (14 Hours)

“As a user, I want to see the details of programs or routines so that I can understand them easily.”

- Task 1(4 hours): Modify detail page to contain more condensed data
- Task 2(10 hours): Manage parser so that the server can update

User Story 2: (13 Hours)

“As an experienced fitness user, I want to design my own customized program since the provided programs do not align with my goals.”

- Task 1(5 hours): Implement “add more exercises/days/cycles” feature in customization page
- Task 2(8 hours): Send results to server

User Story 3: (22 Hours)

“As a lifter, I want an instruction about how to do an exercise so that I can perform it correctly.”

- Task 1(2 hours): Design UX for How-To page
- Task 2(5 hours): Implement UX for How-To page
- Task 3(15 hours): Provide exercise description and media

Tunglin Lee: Developer

Matthew Stone: Developer

Initial Task Assignment

Dongpyeong: User Story 2 – Task 1

Duc: User Story 4 – Task 1

Cameron: User Story 1 – Task 1

Matt: User Story 3 – Task 2

Tunglin: User Story 2 – Task 1

Tarun: US1 – Task 1

Initial Burnup Chart

Initial Scrum Board

The Scrum Board is divided into four columns: User Story, SP3 - To Do, SP3 - In Progress, and SP3 - Done. The background features a scenic image of a forest lake.

- User Story**
 - SP3-US1(Filtering): As a user, I want to see details of programs or routines so that I can understand them easily
 - SP3-US2(Filtering): As an experienced fitness user, I want to design my own customized program since the provided programs do not align with my goals.
 - SP3-US3(Filtering): As a user, I want to export my workout program to my email so that I don't need to re-visit the website and search for my program again when I exit the browser
 - SP3-US4(Filtering): As a lifter, I want an instruction about how to do an exercise so that I can perform it correctly.
 - + Add another card
- SP3 - To Do**
 - that it contains more condensed information and managing parser so that the server can update
 - US2 Task1: Implementing "adding more exercises / days / cycles" feature in customization and sending the result to a server or to an export function
